Sa Riera, the picturesque beach of Begur, is located in one of the most coveted luxury destinations on the Costa Brava, Spain. This exclusive area is known for its refined tourism, with several 5-star hotels (▲) nearby, offering a perfect blend of natural beauty, high-end experiences, and the essence of Mediterranean elegance.

Finca Victoria, once the cherished refuge of a Belgian family enchanted by the Costa Brava, was a sanctuary where the doors were always open and the soul of hospitality endless. Here, artists, politicians, and friends gathered, drawn by the allure of the place, where days blurred into nights of laughter, discovery, and peace.

In 2025, two Catalan families, guided by the spirit of Victoria—a woman whose generosity was both extraordinary and magical—took the reins of this timeless estate, committed to preserving its legacy.

Finca Victoria will soon open its doors as a unique hotel, where each guest is embraced like family. With heartfelt warmth, exquisite food, and an invitation to discover the magic of the Costa Brava, we honor Victoria's memory, so her spirit may live on for all to experience.

Experience the local flair at a luxury, design-forward boutique hotel in the heart of Costa Brava, just steps away from the Mediterranean Sea and the beautiful Sa Riera beach.

## A Design hotel by Marriott Bonvoy

Finca Victoria has been proudly selected as a member of Design Hotels™, an exclusive collection of independent, design-focused properties under the Marriott portfolio. This prestigious recognition celebrates the hotel's singular character, where thoughtful design harmonizes with the rich history, culture, and natural beauty of its Costa Brava surroundings.

As part of Design Hotels™, Finca Victoria embodies a commitment to creativity and authenticity, offering guests a truly immersive experience that reflects the essence of its unique location.

*"As owners, we wanted the design to honor the soul of the original Finca while creating a space that feels fresh, modern, and in perfect harmony with the natural beauty of Costa Brava",*

Harry & Toni Serra

Each Design Hotels™ property reflects the vision of an independent hotelier, an "Original" who combines thought-provoking design, local knowledge, and cultural programming to create a gathering point for travelers and members of the surrounding community that challenges the very definition of a hotel.

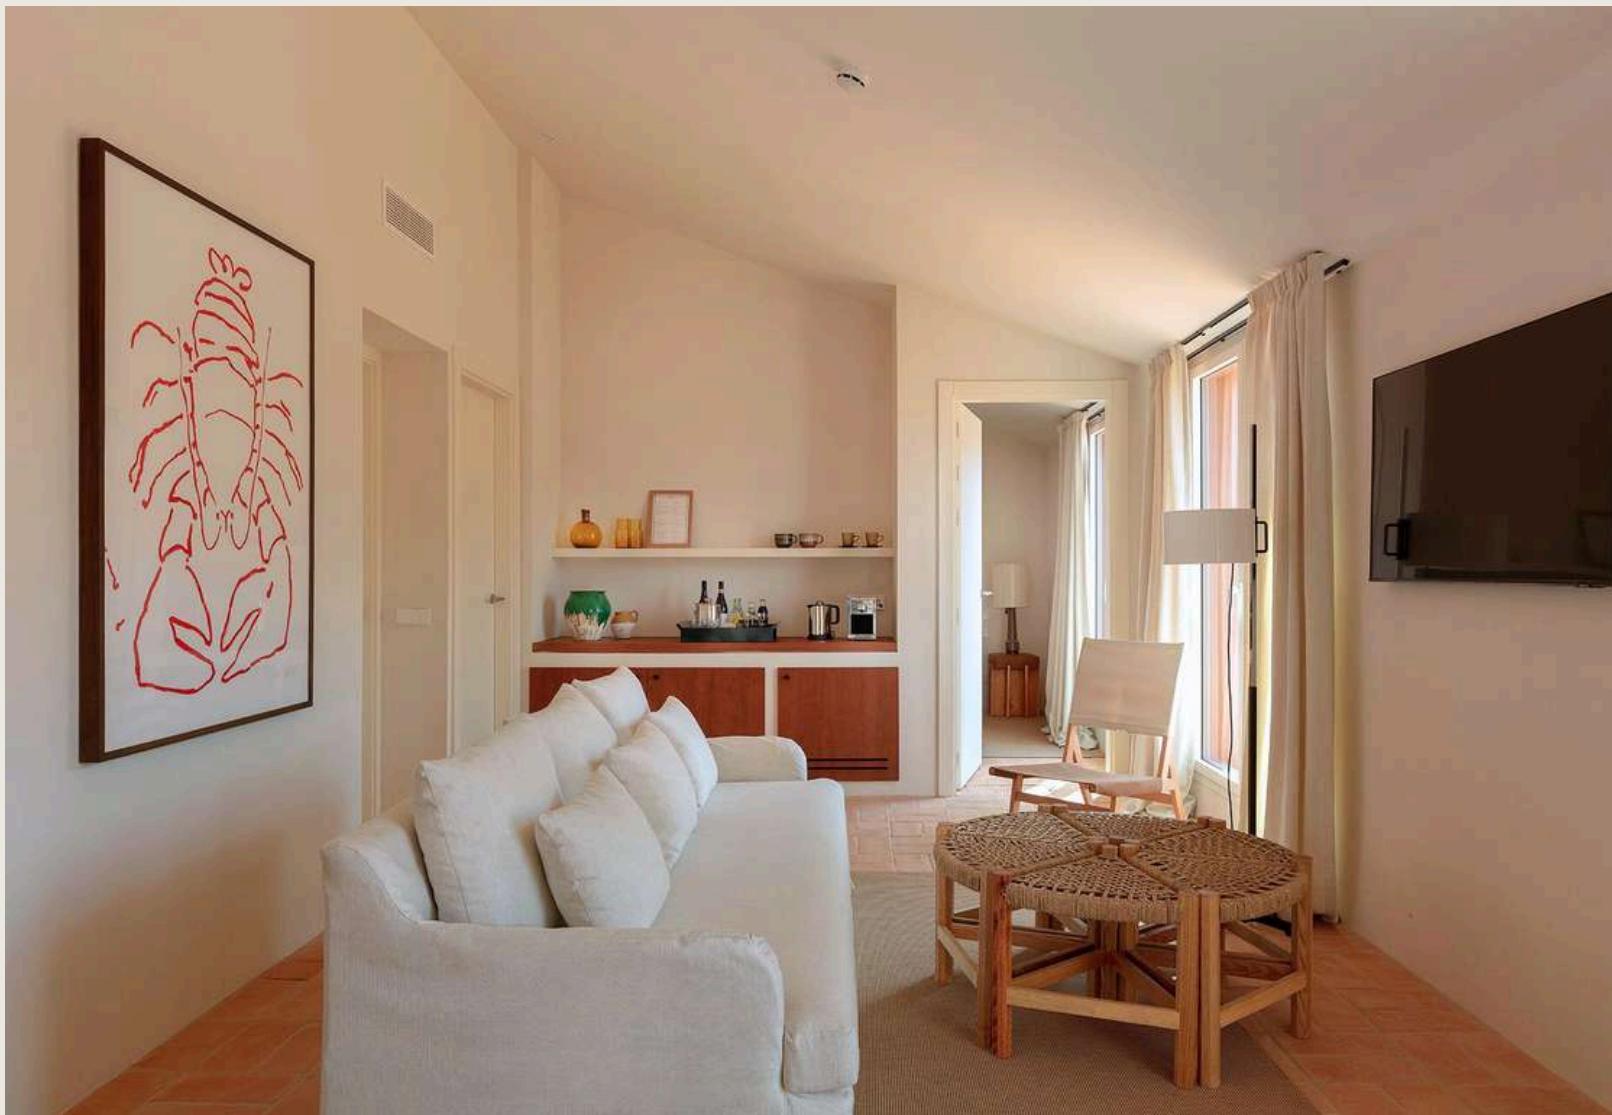

With the help of architects, owners envisioned the building to blend seamlessly with the surrounding scenery while still creating a completely new, from-scratch property. The hotel emerges from the restoration of the renowned old Finca, once the epicenter of high society glamour. Finca Victoria will preserve the ancient medieval-style cloister and its centuries-old olive tree. The interior design is a true reflection of the owners' vision, with their personal touch guiding the transformation, supported by the expertise of Post-Company and Sarita Posa. The architectural work was carried out by GCA Architects.
