# REAWAKEN YOUR NATURE

At Off Grid, our philosophy is rooted in the transformative power of nature and a passion for the great outdoors. We have created a relaxed and welcoming space where guests are encouraged to unplug, slow down and embrace the simple life.

Here in La Garrotxa, you'll find the freedom to reflect, recharge and reconnect with what matters most.

# RUSTIC LUXURY

The Off Grid experience is built on a foundation of simplicity, sustainability, creativity, community and adventure. We have spent the past year renovating this beautiful 17th century masia in the heart of Catalonia, taking care to retain its original character whilst adding contemporary design touches throughout

“In its own quiet way Off Grid Girona is a remarkable proposition – Condé Nast Traveller

# LOUNGING

We have sensitively created three lounges drawing on inspiration from the historic Masia, antique furniture sourced from around Catalonia and pieces hand crafted by our team. They feature honesty bars where you can help yourself to local wines, beers and complimentary water and coffee throughout the day. And who doesn't like to cosy up in front of the fire?

# GASTRONOMY

Drawing on the rich culinary traditions of Catalonia, with inspiration from further afield, dishes are tasty and soulful – with plenty of options and variety to suit even the most particular palettes and preferences during your stay in La Garrotxa.

Meals can be taken by the pool, in our Cantina, Boardroom and Garden Studio.

We can prepare meals on request including vegan and include breakfast, lunch, dinner. Breakfast is included in the room rate.

Below the Masia, a network of quiet backroads and gravel trails offers routes for every rider, from easy going loops to all day adventures. Some of our favourite rides [here](#).

We have a secure large bike garage / workshop with direct access to the road. Rental bikes can be arranged aswell as transport and guides.
